

Malmö, April, 2019

To the customers of BE Group Sverige AB

Regarding: Conflict minerals

The term “conflict minerals” is defined as columbite-tantalite, also known as coltan (from which tantalum is derived); cassiterite (tin); gold; wolframite (tungsten); or their derivatives; or any other mineral or its derivatives determined by the Secretary of State to be financing conflict in the Democratic Republic of the Congo or an adjoining country.

In 2010, President Obama signed the Dodd-Frank Consumer Protection Act into law. Section 1502 of that act addresses the international trade and use of Conflict Minerals.

None of the materials stocked by BE Group Sverige AB has Tantal, Tin, Tungsten or Gold added to it.
